Chaitanya Bharathi Institute of Technology , Hyderabad , Telangana

CAREEER OBJECTIVE

Recent MCA graduate from CBIT with a strong foundation in software development, data structures, databases, and problem-solving. Proficient in Python, JavaScript, React.js, SQL, and modern development tools, with hands-on experience building web applications and working on academic projects. Seeking a Software Engineer Trainee role to apply technical skills, learn industry best practices, contribute to innovative software solutions, and grow into a proficient software engineer within a dynamic organization.

EDUCATION

• Master of Computer Applications, CBIT, Hyderabad CGPA: 8.70	2024-2026
• BSc (MPCs), University Post Graduate College, Secunderabad CGPA: 8.62	2021-2024
• Intermediate in MPC, KLN Junior College, Miryalaguda Percentage: 97.3	2018-2020
• SSC, Navajyothi EM High School, Miryalaguda CGPA: 10.00	2017 -2018

SKILLS

Frontend Web Development HTML5 · CSS3 · JavaScript	Backend & Databases MySQL · Stored Procedures REST API Concepts · RBAC · Database Security
Programming Languages Java (OOP) · Python 180+ DSA & SQL challenges solved	Tools & Platforms · Antigravity · Git & GitHub · VS Code · Vercel CI/CD Basic Linux CLI · A
SAP Readiness & Soft Skills OOP Principles (Java) · SQL & Data Modeling · API Concepts (REST) · Web UI Technologies · Analytical Problem Solving · Team Collaboration · Strong Communication · Eager to Learn SAP UI5 / Fiori	

PROJECTS

AcadVault — Decentralized Full-Stack Web Application Jan '26 - May '26 [GitHub Link](#)

Blockchain · ReactJS · JavaScript · HTML/CSS · Solidity · IPFS · Vercel CI/CD

- ▶ **Frontend:** Built a responsive React.js SPA with clean component architecture, enabling sub-second QR-based credential verification with a seamless, mobile-friendly interface.
- ▶ **UI/UX:** Designed and implemented intuitive user flows for credential issuance, role-based dashboards, and real-time status updates — prioritising clarity and speed.
- ▶ **Performance:** Deployed via Vercel CI/CD with optimised build pipelines, achieving fast load times and continuous delivery with zero downtime.
- ▶ **Backend Integration:** Integrated client-side JavaScript encryption with decentralised storage (IPFS), eliminating centralised server dependencies and improving site resilience.

Library Management System —Database-Driven Web App

PostgreSQL · RBAC · Stored Procedures · SQL Security Hardening

- ▶ Access Control : Implemented granular RBAC with secure stored procedures to manage book issuance/returns, preventing privilege escalation and unauthorized data access.
- ▶ Database Security : Designed fully normalized PostgreSQL schemas with primary/foreign key constraints, enforcing relational integrity and eliminating injection attack surfaces.
- ▶ Hardening & Audit : Conducted security-focused query optimisation, CTAS reporting, and risk analysis to strengthen overall database resilience against insider and external threats.

CERTIFICATIONS

- SQL (Intermediate Certificate) | HackerRank | Oct'25 | [\(Link to Certificate\)](#)
- Java (Basic) Certificate | HackerRank | Feb'25 | [\(Link to Certificate\)](#)
